DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-2 are rejected under 35 U.S.C. 103(a) as being unpatentable over Arai et al. [JP 08-250339] in view of Niwa et al. [US 5,063,098].

Arai et al. discloses a grain-oriented electromagnetic steel plate/sheet for an low noise induction apparatus comprising:

- an electromagnetic steel plate/sheet [a]; and
- a viscoelastic layer [b] disposed on at least one surface of the electromagnetic steel plate/sheet.

Arai et al. discloses the instant claimed invention except for the specific thickness of the viscoelastic layer.

Niwa et al. discloses an electrical steel sheet [1] including at least one viscoelastic layer of 30µm or more to 60 µm or less in thickness disposed on at least one of the surfaces of the steel sheet, wherein the viscoelastic layer having the loss factor have one or more peaks at temperatures within the range from 20 to 200 degrees Celsius.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the viscoelastic layer design of Niwa et al. for the viscoelastic layer of Arai et al. for the purpose of providing vibration damping effect.

Response to Arguments

Applicant's arguments with respect to claims 1-2 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
